Document Body

Hello James-

Attached is a long winded expose about George. You know how George makes me go on and on. I am sending this to you in draft so that we can craft it however you want. Bill and I thought that we would get you something with provided some background to the RPO so they would have context for you comments. I put together a beginning paragraph which presents what I interpret to be EPA's perspective. I thought is would be helpful to tell them what the major concerns are upfront and then follow up with a sort of historical perspective of our thoughts, discussions, comments etc.

It is 21 pages long so it is pretty thorough. I wanted to make sure that the RPO had the whole story. Anyway it is food for thought. Let me know what you think and we can take it from there.

Cheers,
Indira
